- HTML

Projects

Moramba, Associated with Aeropres India Private Limited

08.2022 – 05.2023

I simultaneously worked on this project as a web developer and a user interface designer. I created high-quality client-side features using React during the course of the project. as well as creative user interfaces. Along with other coworkers, my job is to create and maintain production-ready code.

Article Summarizer, AI-powered article summarizer tool [🔗](#)

05.2023 – 05.2023

Our AI-powered article summarizer tool is perfect for professionals, academics, and researchers because it can swiftly and simply summarise lengthy articles with a few clicks.

HealthX, IoT Based system

01.2022 – 03.2022

IoT based Remote Health Monitoring System For the measurement of bodily variables such the ECG, temperature, pulse rate, and oxygen level, it offers a solution. We are using a variety of sensors to collect data on human bodily characteristics.

Netflix Clone

03.2022 – 03.2022

I have created Netflix Clone with the help of Live APIs, ReactJs & JavaScript.
