- Photoshop

Projects

Moramba, *Associated with Aeropres (INDIA) Private Limited* 06.2022 – present
I simultaneously worked on this project as a **web developer** and a **user interface designer**. I created high-quality client-side features using **ReactJs** during the course of the project. as well as creative user interfaces. Along with other coworkers, my job is to create and maintain production-ready code.

REMOTE HEALTH MONITORING SYSTEM, *IoT Basesed system* 01.2022 – 03.2022
For the measurement of bodily variables such the ECG, temperature, pulse rate, and oxygen level, it offers a solution. We are using a variety of sensors to collect data on human bodily characteristics.
- ReactJS, Firebase, MySQL, HTML, and CSS were used

Netflix Clone 03.2022 – 03.2022
I have created Netflix Clone with the help of Live APIs, ReactJs & JavaScript.
